Economic Surveys vs Census

Economic Surveys

- Annual, quarterly, monthly
- Limited industry & product detail
- Mostly national-level data

Economic Census

- Every 5 years
(years ending in 2 & 7)
- Comprehensive industry & product detail
- Detailed geography

Public Sector Uses of the Economic Census

- **Benchmark other statistics and surveys**
- **Track economic change**
- **Attract new businesses**
- **Assist business development**

Private Sector Uses of the Economic Census

1. Study your industry

Market share

Product trends

Strategic planning

What's my share?

How does my firm compare?

Private Sector Uses of the Economic Census

1. Study your industry

- Market share
- Product trends
- Strategic planning

2. Study business markets

- Site locations
- Sales territories
- Forecasting sales

Where are my customers?
suppliers? competitors?

Private Sector Uses of the Economic Census

1. Study your industry

- Market share
- Product trends
- Strategic planning

2. Study business markets

- Site locations
- Sales territories
- Forecasting sales

3. Evaluate investments

- Estimate market size
- Data for loan applications

Economic Census Data Collection

Direct Collection:

5 million establishments

Large, mid-size employers

Sample of small employers

Paper or electronic reporting

650 versions of the form

Administrative Records:

(17 million nonemployers and 2 million small employers)

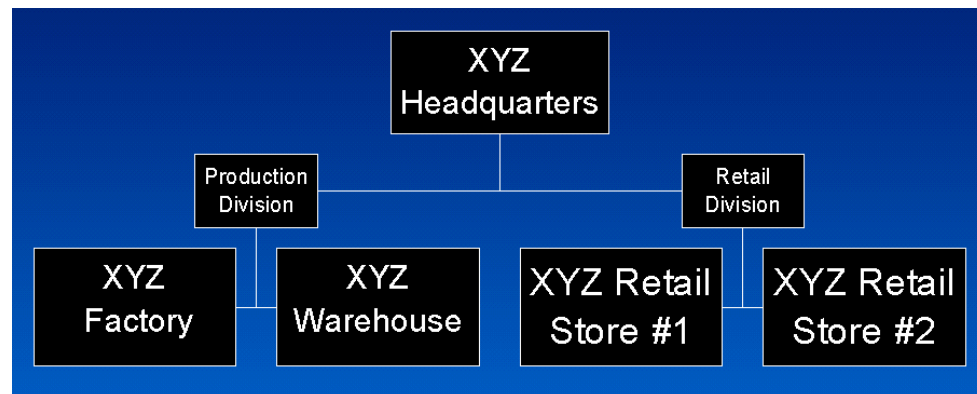

We assign industry codes to establishments

An **establishment** is a store, warehouse, factory, etc. at a **single physical location**

XYZ
Retail

A **company** is one or more **establishments** under **common ownership or control**

Economic Census Data Classification

NAICS

NAICS superseded SIC in 1997

***North
American
Industry
Classification
System***

New Numbering System

NAICS codes are hierarchical

<i>Level</i>	<i>Code</i>	<i>Description</i>
Sector	51	Information
Subsector	515	Broadcasting (except Internet)
Industry Group	5151	Radio and Television Broadcasting
Industry	51511	Radio Broadcasting
U.S. Industry	515112	Radio Stations

NAICS Sectors

11	<i>Agriculture, Forestry, Fishing, & Hunting</i>
21	<i>Mining</i>
22	<i>Utilities</i>
23	<i>Construction</i>
31-33	<i>Manufacturing</i>
42	<i>Wholesale Trade</i>
44-45	<i>Retail Trade</i>
48-49	<i>Transportation and Warehousing</i>
51	<i>Information</i>
52	<i>Finance and Insurance</i>
53	<i>Real Estate and Rental & Leasing</i>
54	<i>Professional, Scientific & Technical Services</i>
55	<i>Management of Companies & Enterprises</i>
56	<i>Administrative & Support & Waste Management & Remediation Services</i>
61	<i>Educational Services</i>
62	<i>Health Care & Social Assistance</i>
71	<i>Arts, Entertainment & Recreation</i>
72	<i>Accommodation & Food Services</i>
81	<i>Other Services (except Public Administration)</i>
92	<i>Public Administration</i>

More information about NAICS?

North American Industry Classification System (NAICS)

The North American Industry Classification System (NAICS) has replaced the U.S. Standard Industrial Classification (SIC) system. NAICS will reshape the way we view our changing economy.

NAICS was developed jointly by the U.S., Canada, and Mexico to provide new comparability in statistics about business activity across North America.

 [NAICS 2007](#) includes revisions to [NAICS 2002](#) across several sectors. The most significant revisions are in the Information Sector, particularly within the Telecommunications area.

The [North American Product Classification System](#) (NAPCS) is now available for products of [service industries](#) (sectors 51-81). (NAPCS will focus on manufacturing products at a later date; for existing census codes, see the [Numerical List](#).)

The printed *2007 NAICS Manual* is now available. See below.

 The official **2007 US NAICS Manual** *North American Industry Classification System--United States, 2007* includes definitions for each industry, tables showing correspondence between 2007 NAICS and 2002 NAICS for codes that changed, and a comprehensive index-- features also available on this web site. To order the 1400-page *2007 Manual*, in print, call NTIS at (800) 553-6847 or (703) 605-6000, or check the [NTIS web site](#). The *2002 Manual*, showing correspondence between 2002 NAICS and 1997 NAICS, and the *1997 Manual*, showing correspondence between 1997 NAICS and 1987 SIC, are also available.

 The following 2007 NAICS files are currently available for downloading in spreadsheet form: [2007 NAICS codes--2- through 6-digit](#); [2007 NAICS codes--6-digit only](#); and correspondence table for those industries that changed: [2007 NAICS to 2002 NAICS](#) and [2002 NAICS to 2007 NAICS](#). A revised NAICS search incorporating the 2007 NAICS codes will be available in the near future.

Also available at this site are lists of [2002 NAICS codes](#) (with links to definitions), [1997 NAICS codes](#), tables showing [correspondence between NAICS 97 and SIC](#), tables showing [correspondence between NAICS 97 and NAICS 02](#), and other files for [downloading](#).

A summary of [NAICS supporting documents](#) cites Federal Register Notices, issues papers, and other reports about NAICS.

NAICS was developed in cooperation with the [US Economic Classification Policy Committee](#), [Statistics Canada](#), and Mexico's [Instituto Nacional de Estadística, Geografía e Informática](#).

2002 NAICS Definitions

4. Confirm selection with industry definition

511210 Software Publishers

This industry comprises establishments primarily engaged in computer software publishing or publishing and reproduction. Establishments in this industry carry out operations necessary for producing and distributing computer software, such as designing, providing documentation, assisting in installation, and providing support services to software purchasers. These establishments may design, develop, and publish, or publish only.

Cross-References. Establishments primarily engaged in--

- Reselling packaged software--are classified in Sector 42, Wholesale Trade or Sector 44-45, Retail Trade;
- Providing access to software for clients from a central host site--are classified in [Industry 518210](#), Data Processing, Hosting, and Related Services;
- Designing software to meet the needs of specific users--are classified in U.S. [Industry 541511](#), Custom Computer Programming Services; and
- Mass duplication of software--are classified in U.S. [Industry 334611](#), Software Reproducing.

[American FactFinder](#) provides Economic Census data within 4 weeks of availability in PDF. An [Introduction to AFF](#) goes step-by-step through use of 2002 Economic Census data.

Economic Census

The Economic Census profiles American business every 5 years, from the national to the local level.

2007 Economic Census forms will be sent to 5 million businesses in December 2007, asking for information about business activity during calendar 2007. The forms will be due back February 12, 2008. Results will be published during 2009 and 2010.

- **Products**
- **Size of Establishment/Firm**
- **Concentration of Establishments**
- **Legal form of organization**

Economic Census

The Economic Census profiles American business every 5 years, from the national to the local level.

Unless otherwise noted, reports focus on the 7 million establishments with paid employees (employers). Only two series also include the 17 million much smaller businesses without paid employees (nonemployers).

2002 Reports by Series :

- [Industry Series](#): Mostly superseded by later reports.
- [Geographic Area Series](#): State reports include metro area, county and city data.
- [Subject Series](#): 52 of 55 reports are now available.
- [Survey of Business Owners](#): Preliminary data available. Final reports for [women](#), [Hispanics](#), [Blacks](#). **NEW!**
- [Business Expenses](#): (U.S. only)
- For other reports, see the [2002 Economic Census report release schedule](#).

2002 Reports by Sector (drill-down and PDFs)

Select a sector

[American FactFinder](#) provides Economic Census data within 4 weeks of availability in PDF. An [Introduction to AFF](#) goes step-by-step through use of 2002 Economic Census data.

[2002 Economic Census DVD-ROMs](#): Disc 1B provides most area data. Disc 1C, to be issued in March, will include all area data and most subject reports. Quarterly releases thereafter.

North American Industry Classification System (since 1998)

County Business Patterns

Select a state

County Business Patterns provides data on the total number of establishments, mid-March employment, first quarter and annual payroll, and number of establishments by nine employment-size classes by detailed industry for all counties in the United States, the District of Columbia, and Puerto Rico.

Employers without a fixed location within a state (or of unknown county location) are included under a "statewide" classification at the end of the county tables. This incomplete detail causes only slight understatement of county employment. The independent cities in Virginia, and the cities of Baltimore, MD; Carson City, NV; and St. Louis, MO, are treated as separate counties.

Zip Code Business Patterns (Enter ZIP Code)

ZIP Code Business Patterns presents data on the total number of establishments, employment and payroll for more than 40,000 ZIP Code areas nationwide. In addition, the number of establishments for nine employment-size categories is provided by detailed industry for each ZIP Code.

Most ZIP Codes are derived from the physical location address reported in Census Bureau programs. The Internal Revenue Service provides supplemental address information. Those employers without a fixed location or with an unknown ZIP Code are included under an "Unclassified" category indicated by ZIP Code 99999.

Metro Business Patterns

Metro Business Patterns provides data on the total number of establishments, mid-March employment, first quarter and annual payroll, and number of establishments by employment-size classes by detailed industry for all Metropolitan Statistical Areas (MSAs) and New England County Metropolitan Areas (NECMAs). As defined by the United States Office of Management and Budget (OMB), an MSA is made up of at least one large city (50,000 population or more), and includes the county or counties in which it is located. Adjacent and other nearby counties meeting certain criteria are also included in the MSA. NECMAs are used in this data series as a county-based alternative to the usual city- and town-based New England MSA classifications.
